TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Front-End: React.js, Next.js, TailwindCSS, Redux, Zustand, Framer Motion, ShadCn, HTML, ES6

Back-End: Node.js, Express.js, NeonDB, MongoDB

Tools: Git/GitHub, Bitbucket, Netlify, VS Code, Cypress, Sentry

EXPERIENCE

Senior FrontEnd Developer — Decimal Point Analytics

Sept. 2021 – Present

- Experienced in **Next.js 13/14/15**, **React 18**, **TypeScript**, and **TailwindCSS**, delivering scalable and maintainable front-end solutions.
- Built **four projects from scratch** (PDFQuery, EazyData, SmartPipe, DocX) and designed their **frontend architecture, folder structure, and componentization**.
- Proficient in building **responsive designs** using TailwindCSS.
- Maintaining clean, reusable and readable code, properly versioned and branched.
- Integrated **OAuth 2.0** across all products to enhance security.
- Developed an **email microservice** using Express.js and Node.js for efficient system notifications.
- Improved performance by optimizing **code and CSS** using **Lighthouse**.
- Implemented **Cypress-based e2e and component testing** for better application reliability.
- Familiar with **SSR, SSG, SEO** for modern web applications.

PROJECTS

EazyData | *Next.js 14, TypeScript, TailwindCSS, Shadcn, Nodejs, App Router, Zustand, Lighthouse*

Dec. 2021 – Present

- Designed and developed frontend architecture of a system for **data migration and cleansing** from multiple sources with **real-time email updates** and scheduling.
- Implemented **parallel routing**, reducing **page load times by 40%** and **RAM usage by 25%**.
- Created **custom hooks** (e.g., **useAxios**) to streamline API requests and error handling, cutting **API call code by 60%**.
- Built a **modular lightweight table** with custom features, reducing reliance on external libraries and minimizing **bundle size**.
- Used **TailwindCSS** and **Shadcn** for consistent design and reusable components.
- Developed an email microservice using **Node.js** for efficient notifications.

PDFQuery | *Next.js 14, TypeScript, TailwindCSS, Zustand, Websockets, Sentry*

Jan. 2024 – Sept. 2024

- Designed the **frontend architecture** for a platform to **summarize PDFs** and answer user queries.
- Built a **mobile-friendly UI** with **custom components and animations**.
- Used **Websockets** for real-time data streaming to deliver **faster responses**.
- Implemented **server-side pages** for better loading speed and improved performance by **20%**.
- Used **Zustand** for managing global states and session storage.
- Integrated **Sentry** to capture and debug errors in real time and **CypressJs** for E2E Testing.

EDUCATION

Adamas University

B.Tech Computer Science and Engineering

August 2021

GPA: 7.74
